Tech Session: The March tech session went well. We needed to check the lights on the event trailer. I brought my van with trailer hitch and wiring hookup so we could just hook up to it and check everything. All lights on the trailer worked fine. Thou nothing goes that easy. While checking the brake lights we blew a brake line on the van. We got it into the garage with the buggy and some worked on getting the engine in the bug started and with the help from Lenny and Dick Gaffney, we cut and put in a section of new brake line Kevin had there Thank GOD. We found 2 plug wires transposed on Kevin's project, and the bug started right up. It needs some more tweeking but its 1 more step closer to the road.-----Last meeting someone asked about a couple who said they wanted to join the club. I talked to him and he said they were selling the vair because his wife wasn't driving it enough. It's a 65 coupe w/auto He is a mechanic and has done a bit of work on it. I think he told me he had a conv body for sale too. I think he told me about 7500.00 for coupe. It is in the swap sheet starting Mar.18-----See you all next mgt. nite Apr.2 at barbie's-----from the pres's magic fingers to you--------Nick

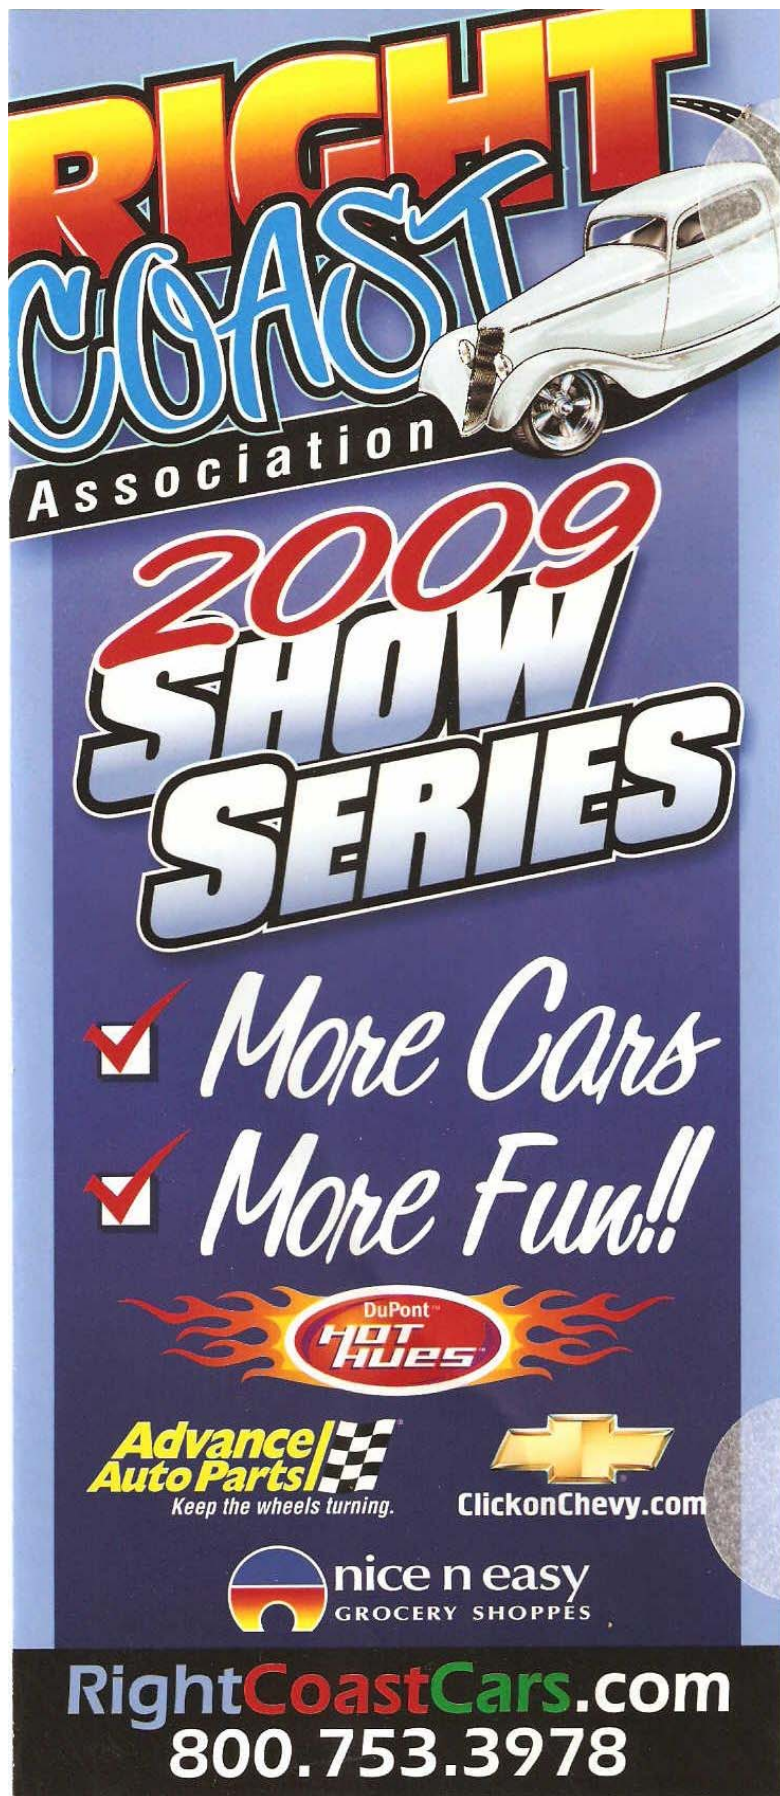

From Len Smith:

I have the raffle tickets for the 1964 Monza coupe to be raffled off at the CORSA convention in Jacksonville. The tickets are \$5 each. If you buy \$20 worth, you get one extra ticket. If you buy \$50 worth, you get 3 extra tickets. For you high rollers, if you buy \$100 worth, you get 7 extra tickets. You do not have to be present to win. I need to have the money back to them by May 1. If you are interested, see me, e-mail me, or phone me. Don't miss out.

Also, dues are due in May. The cost is still only \$20 for a family membership. Help keep the club solvent.

Be sure, too, to check our website for the latest information about the Recall. Also check out new features such as the tech page, which need your input.

MEETING MINUTES

The meeting was called to order at 7:00 by President Nick Lombardo. The treasurer's report was accepted and the minutes of the previous meeting were approved.

The Central New York Car Club is having a car show on March 28 at the State Fairgrounds in the Horticulture Bldg.

The East Syracuse Chevy Dealer is looking for cars (Chevy's) to put on display on the 30th of March. There is a car show in Monticello on June 7th.

Old Business: Recall--Barb has been researching prices for pizza for our welcome party. She found a place for 12 pizzas and 2 large salads for \$103.68. She is also in charge of door prizes and has 20 plus but still needs more.

The concourse will be held across the street from the hotel where there will be more room. We are also looking into having the moving events there.

We will be looking into which car to have on the front of the program for the Recall. We are having trophies this year instead of plaques. We need more advertising for our program.

Old Business--There will be a car show at MVCC on June 13 to help the Relay for Life (Cancer survivors). Kevin has received raffle tickets to win a car at the Corvair Nationals in July. If anyone is interested in buying a ticket, please see Kevin. The car is a '64 Monza Coupe National Seniors Car. The tickets are \$5.00 each or 5 for \$20.

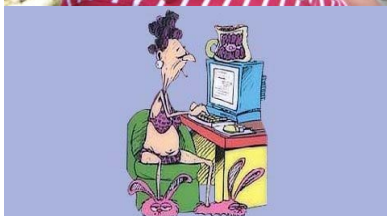

Please remember our tech session at Gloria and Kevin's on March 22 at 10:00. Ask Gloria about a dish to pass.

The meeting was adjourned at 7:35.

Respectfully submitted

HI AGAIN

Well this month went by fast !!

WE MISSED THE EVENT AT Gloria and Kevin's due to rita's cold and my feeling iffy also.. but when it warmed up later on I went out to the shop and ran the truck a while to adjust the valves and fix a shorted spark plug (bad skip!) that was bugging me. It seems that the NGK plugs I use may be a little less tolerant to rich chokes (excessive gas) than I thought.. but it now runs much better..

Then last week I worked on a lot of misc stuff on the wagon and the truck. The wagon now has lights that work on all 4 corners! I rebuilt the headlight buckets and tail lights for it and the 64 coupe. I also finally came up with much better (brighter) tail lights for the rampy. I re-painted the trunk on the coupe and am now getting ready to put it all back together. I installed a new emergency brake cable on it also. My latest mystery is why someone drilled a bunch of tiny holes in the front floor at random , then put small screws in them all. The floor has no rust , being from Texas. Oh well , I will remove them all and repair the holes. This car might be ready for the road this year with the engine that is in it , but I will have to check it out more yet. I know it needs a blower bearing , but they say it needs more. Sounds ok to me so far . The truck has been blind siding me a lot , so I just left it alone for now and worked on other things. This winter sure has not gone as well as I had planned!

Soon I will have to take time away from cars and do some overdue painting and other house maintenance work. I also need to finish up some long put off heavy duty antenna work for my ham radio stuff I did spend 3 days on the lawn mower , cleaning and painting the deck with POR15 , servicing the hydraulic system , and changing the oil. Then I waxed it up good. I hope that's all set for a while now , I should have done that work last fall.

So far all I have to show for the winter's work is a bunch of unfinished cars.

A few of us are awaiting Ron's return north , so we can go "shopping" at his shop. He sure milks the most he can out of that Florida warmth.

A side note , I found that SAVES in lakeland carries the POR15 super tough paints and thinners in stock. This stuff is the toughest paint I have found yet! It is the only paint I found tough enough to stay on that were in the water all season. So that means it is thee answer for undercar and suspension painting. It is not cheap , but it IS worth it. Also , wear rubber gloves when working with it , because it will not wash off with any thinners . I brushed it on my mower pan , and it looks bullet proof. Time will tell.

It sounds like the RECALL is shaping up nicely. I still need to finish up the trophies we started here yet.

I have peppered this issue with a few pictures of things I have been working on. Nobody supplied me with pictures from the last tech session!

Did everyone pay up their dues yet? We will be updating the mailing list soon. I hope you all belong to CORSA by now also.

We need to drum up more PAYING members of CORSA. If you follow other similar clubs , you will find that membership in the national group is MANDITORY to belong to a local CHAPTER .yes I know we have discussed this before , with all the valid? Exceptions , but the others have to do it so.....with the economy as it now is , I still say don't go spending on unnecessary items. We all worked very hard for that club treasury over the years , so go forward carefully.

Jim is still looking for more exciting content for the website. He will be adding a tech session area soon. See his note elsewhere in this issue. Preparations are progressing for this years RECALL. A few upgrades and big changes are in the making. More on this in the next issue.

THANK YOU ALL THAT ADDED CONTENT THIS MONTH.

WELCOME TO NEW MEMBERS AND RENEWALS!!

WE need to discuss a new editor for our newsletter . I have had it on and off in some capacity for a lot of years now , and it is becoming harder for me to do. I hope someone can step up and improve our image with a better newsletter soon. If you can help out , please step up soon.

I think that's enough **one finger typing** for now (hope I did not forget too much!!) for this month , I better get back to work... **See ya soon!**
