## President's Column

## President's Column

CNY Corvair members, Temperatures are reaching all time highs this week, our highest was 100 with the rest of the week in the high 90's. I will be leaving for Denver today, high temperature there at 90 degrees F., COOLER temps, can't wait to get there. The purpose of the trip, to attend this years Corsa Convention. Maybe another Corvair or two to bring back? It going to be a great trip and will be coming home next Sunday, 7/31. My daughter Megan will travel with me to keep my spending under control.

The nationals at the fairgrounds are over, and we had a few Corvairs there to represent our club. Thanks to those who attended this year, hopefully they had great time and we hope for a better turnout next year.

Wampsville show will soon be here, looking for a good turnout. I have informed the Albany Corvair Club about the show and some of them may attend the show. I have also sent info about this upcoming show to the acorns, hopefully some of them can make the show. The show has a Corvair class, used auto parts for sale, large flea market and plenty of food. It is a fun day, a large crowd, lots of nice show cars and a great time for all. Hope to see you there.

Well, have to close for now, have to finish packing, enjoy the rest of this summer. Phil

THE END IS NEAR

Hi folks,

I'm riding in this weekend's MS bike tour from Keuka College, about 120 miles in two days, looks like the weather may be good, too!

Suffice it to say it's a good cause that supports research and patient services for thousands across upstate NY who suffer from multiple sclerosis. I'd like to extend an invitation to any who wish to help support the MS society to sponsor me - my fundraising page is at: [http://main.nationalmssociety.org/site/TR/Bike/NYRBikeEvents?px=1962537&pg=personal&fr\\_id=16121](http://main.nationalmssociety.org/site/TR/Bike/NYRBikeEvents?px=1962537&pg=personal&fr_id=16121)

No problem if the event is over by the time you read this or remember to do anything about it; just follow the link, they'll still take your money and put it to good use!

Thanks so much!  
Ken Hinman

## TIM'S TECH TIME AND RAMBLIN'S

GREETINGS AGAIN, from my little shop in Memphis, NY.

Well, another exciting month in my shop!. Lots of problems to fix, and mostly on my own vehicles this time.

We made it to the Fairhaven show, another nice time. After that show visit, we continued west along the lake on a long day trip in the rampy.

We enjoy taking a lot of "day trips" in the rampy, but gas prices on HIGH TEST, shorten them sometimes.

Phil Domser, and his daughter Megan, are on their way home from the C O R S A nationals in Denver CO as I write this. They have pictures to share, but I have not been able to get them yet. I put some found on the website [www.corvairproject.com/2011%20CORS/index.html](http://www.corvairproject.com/2011%20CORS/index.html) [www.corvairproject.com/cgi-bin/home.cgi](http://www.corvairproject.com/cgi-bin/home.cgi) I hope to download phil's camera and put a show together for a future meeting.

Dennis Randall came up to an auction last week to buy Ken Hinmans 67 convert, hot out of the barn. He plans on bringing it back to life soon.

It sure was nice to see the RECALL go well again, great job folks!

Some of the pictures below show what I run into at times. I am building a couple of secondary carbs for my new motor in my spare? Time. One I took apart for the top cover greeted me with collapsed floats and a crack in the bowl. It must have been full of water and froze up. I never saw floats so bad before!

Another picture shows what I found in 3 carburetor choke pull offs that failed me. I am thinking our new wonderful gas products contributed to these failures. Yet another picture depicts a transmission failure I had this month. And to top it off, I took a @30 mile trip at highway speeds and came home very happy with how it was running. Now the down fall comes along next day. I went to use it the next day to go to an appointment. I started it up to hear a LOUD one cylinder tap noise. I am guessing a valve seat came loose when it sat after getting it warm. Any how that sure sets my mood!. That motor is on the bench waiting for me to check it out and fix it (with 110hp heads!) these heads have less than 2000 miles on them, after expensive local shop work.

So I say, make sure your work is done by a CORVAIR mechanic, one who understands the situation with air cooled aluminum motors, it ends up cheaper to do it right the first time. So needless to say, I am very tired of seeing my motors on the jack.

The shop has remained ALMOST cool enough to work in this year, even on those 100 degree days. I would still rather be to hot than too cold!

I hope to be at the VW show, Jordan Fall Festival, and a couple of others. PLEASE watch for pre registration for Jordan, I will send it as soon as it comes out. YOU MUST REGISTER EARLY!!, and also please get there early, it is very hard to hold parking spaces there.

It is a fun show, but getting bigger every year. *Check out the website frequently asked questions page for more answers.*

Prepare yourselves and your cars for the final shows of this season.

I hope I covered everything properly! Be sure to visit our fine website often, there are constant upgrades. <http://www.cnycorvair.com/>

### Corvair Fans

Come and join the Central New York Corvair Club. We are a fun group! We have an outing every month and a business meeting once a month. We have tech sessions every once in a while. We would like new members and new ideas. We are a very social group and wives are always invited. For more information please call Sherry or Lenny Smith at 315-697-7596. We hope to see you at the next meeting.
