HI THERE , it sure is hard to believe another year has gone by already!

The last month or so has been very slow in Corvair land here I am still grinding away on the rampy. So far I have made the engine room look better , cleaned and painted several parts back there , including the battery tray with POR 15 . I spent a lot of time grinding that paint on bedliner off the battery box lid. I really cleaned all the parts to bare metal , painted , and reassembled them today. I started to remove all of the wiring to replace it , along with the leaky powerglide cable. In the process I discovered the gas tank is weeping at a corner. So just another delay added to the pile. I am about ready to install the motor to get it out of my way , but now I have to wait for a replacement harmonic balancer. I have so much apart this time , I am running low on room.

Today's setback was the discovery of slight leaks on the seam of the gas tank. So now I have to deal with that , plus it is full of high test. This is NOT one of my favorite jobs to do! I hope I can get it all done in time for spring!

With the gas prices going nuts again , I wonder if I made a mistake putting 4 carbs and a performance cam in this new motor. Well our buddy Phil is on his way to California to pick up his latest purchase , another Ultravan!. He was in Arizona @4pm today (Monday 25th) , when I called to remind him of his duty to write a front page note. He must be about out of space by now!

I hope we can get our Valve cover track and trailer all ready to go for the Recall. Our display motor could use a cleanup / detailing also.

There is a lot of hard work going on behind the scene to keep our long running Recall going on. The same old goal is Corvair related fun for all attending.

We are forming our busy schedule of events for this summer , including the regular shows we go to as a group and other events Rita and I go to , cars and Ham radio. It gets filled up fast! If you have ideas for club tours etc that our group might enjoy, be sure to share them with Rita.

Spring is approaching quickly , so I am almost in a panic to get the truck finished. At first I thought I might get the Lakewood ready for the road , along with the truck upgrades...what a dream! The coupe is waiting for body and paint work. The Crampy is waiting until all other work is done , then maybe I will get brave enough to tackle it. It will be a major project , which most people have advised me to junk it out...but I am not ready to give up yet.

Be sure to keep your eye on the club website <http://www.cnycorvair.com/CNYCorvair.php> Jim does a great job of keeping things interesting and up to date.

Latest info (if accurate) about the Nationals at Kalamazoo is that the host hotel and others are booking up fast. Have a happy safe New Year.

Don't forget to register early for the Kalamazoo nationals , If you planning on going!! The host hotels ALWAYS fill early. It is MUCH more fun to be at the host hotel. Keep up to date at the C O R S A website. <http://www.corvair.org/>

PLEASE RESIST TEMPTATION TO "REPLY ALL " TO ANY OF MY POSTS! Thank you.

Regards, May all your electrons and oil drops go where they are supposed to...Tim Colson
