THE PREZ SEZ

July starts off with rain, then temperatures in the nineties. On July 13th, Gloria and Kevin Fear, Janet and Darrel Varley, Dave McCarty, my wife Martha and myself went on three hour cruise of Skaneateles Lake. The trip plus dinner was put on by the Acorns Corvaair Club of Rochester. Jeff Clark made all arrangements and our group from the CNYCC had a great time. The boat delivered mail to residents who lived on the lake. Thanks go out to the Accorns for inviting us to join them on the cruise. My wife Martha and I went to Kalamazoo MI for Corsa Convention. It was in the nineties all week long, but we survived. Paul McCreary and his son Jonathan from Canada both took awards in the Autocross and Paul took a first for the Engineering Award. Dave Shoemaker from the Accorns, received another silver award with his 63 convertible. Jim Smith our web master took a third place for best Web Site. There was excellent turnout and it was a great show. Next years Corsa Convention will be held in Tacoma Washington being hosted by the Corvanatics. Make reservations early if you are planning to attend. Dave McCarty has my 64 Spyder for a new paint job and Tim has got my 64 Monza for any work it may need. Hope they are back on the road soon, maybe before the end of summer, yeah right. With that I will close this months edition of The Prez Sez. Have a safe and happy summer.

Secretary's Report

NO MEETING HELD IN JULY

GEORGIA ROVING REPORTER by Len Smith

We had a great time at the Recall, seeing old friends and cool cars. I even managed to cop a first-place trophy in the valve cover race and a second place in the model car contest. Those trophies traveled back to Georgia with us to join bunch of others gathered over the years. We got back to Georgia on June 10th, and the following weekend, Webmaster Jim and wife Barb came for a visit. We took them to Anna Ruby Falls, a park north of us, where we had a picnic with them and with Jody and Pam. They all hiked up to see the falls, while Sher and I sat beside the stream and relaxed. Then we went to Helen, an Alpine-themed town full of shops and restaurants and other tourist attractions. We watched people tubing down the river which runs through the town and had dinner before heading home. The following weekend, we went to Lake Lanier for a picnic with a number of members of Pam's family. We enjoyed ourselves and the kids got to swim. So no car stuff for most of June. We had a pool party on July 4th that was rained out, since there was thunder and lightning. (No, we weren't afraid of getting wet, just afraid of getting fried). Our weather has been extremely rainy as has yours (look at Oneida), but this morning, July 6, was dry enough for Mustang John and me to check out the monthly swap meet at Atlanta Dragway. Attendance was down again due to the weather, so there were only about 10 cars on display (including my turbo) and fewer vendors. Again, no Corvair parts, but John found an intake manifold and pair of heads that he may be trading for an extra engine that he has. We shopped and I took some pictures before we left. The rain respite lasted until about 11:30, when the skies opened up again. Fortunately, we were home by then, but the vendors probably got discouraged.

Saturday, July 13, was another day that promised rain (as usual). John and I had wanted to go to a show in Gainesville, but with a 70% chance of rain, we opted out. Another strong shower about 5 P.M. dampened our enthusiasm for the monthly Maysville Cruise-in. Maybe next weekend will be drier.

The next Saturday wasn't drier. We keep getting rained out of car events. Not much to report this month. There are pictures from the swap meet on the website.

TIM'S TECH TIME AND RAMBLIN'S

HI THERE , it sure is hard to believe another month has gone by already!

This summer has been mostly taken up by the latest Corvair project , a 65 CORSA convert , which started as a minor sound-ing situation , that quickly escalated into a complete new motor assembly , and now the repair of the differential. I think ping-ing took out the piston , spreading aluminum flakes thru the engine. The differential nose was probably broken by removing the motor without the transaxle assembly. It is almost impossible to remove the motor separately without breaking the throw-out shaft. Clark's sells a heavy duty version , that holds 2 input shaft seals . The hardest part of these jobs is proper cleaning of the oily , grubby , parts. So , after transferring the dirt from the parts to me, I am now finally on the way back together.

I am sure the owner is almost as anxious to see the end of this project as I am...

We have been driving the rampy around a lot , breaking in the new motor , and looking for any bugs. So far things look good after over a thousand miles. I hope to make a few more upgrades and checks as soon as I have room to work on it.

The next big project waiting , is a nice 64 convertible for Phil. It is mostly detail work , and a few minor? Upgrades. This car is in very good condition as it sits , but several details will be done in the engine room . This is the former Louie Lee car. I am focused on getting ready for long trips in the Rumpy soon , then on with shop work. I am never done , and don't forget , I have ham radio things going on also!

Next show for us is Port Byron ,VW show, then Wampsville ,then Clark's in Mass, and Jordan ,(We have a Vacation trip to VT in there also)

I am waiting for promised pictures from the CORSA nationals , and other shows from those lucky enough to have attended them.. .

Remember the picnic in Vestal NY coming up. We cant get bored this year!

It is VERY important that you get E mail versions of my posts , or you WILL miss a lot of important information. Mainly show events and application blanks needed to put your cars in them, plus other newsletters from around the state and the country. Also watch carefully for attachments , most show blanks are now PDF files.

We just can not mail all of this out.

We hope to see you all at the next event! Remember register early for car shows you are going to. Sometimes it gets you sur-prise benefits! .

Be sure to keep your eye on the club website <http://www.cnycorvair.com/CNYCorvair.php> Jim does a great job of keeping things interesting and up to date. I also had mention that our Club website won a national award! More on that soon. Congrats to Jim Smith , our web engineer.

PLEASE RESIST TEMPTATION TO "REPLY ALL " TO ANY OF MY POSTS! Thank you.

Regards, May all your electrons and oil drops go where they are supposed to...Tim Colson

John Check contacted me and asked if we could mention his car he has for sale in the fan. He has a 1964 Monza convertible 110 with a powerglide. It is yellow with a black top, the back window has a small tear in it. He states that the car is solid, has good floors. The paint job is good except for a few bubbles from past work. The interior is good, the car runs good and drives good and has good tires with factory hubcaps. He told me that he bought the car to sell so he does not have a lot of history to this car. He is asking \$5,000.00 and he is from Delaware. If anyone is interested, his # is 610-909-7873.
