THE PREZ SEZ

I am sorry for not sending my presidential column on time last month because.....no excuses. Last week we enjoyed great weather at Wampsville NY. There was about 15 Corvairs at the show, great munchies and everyone had a great time. Congratulations go out to Gloria for her first place award, great job.

My wife Martha and your president took advantage of the invitation extended to us by Fred Marsh and his family to their open house. The Marsh's live in Painted Post NY, we had great weather, pizza and wings, and everyone had a great time. There were about 20 Corvairs on display plus a number of parts vehicles. Thanks go out to Fred and his wife for inviting us, looking forward to next year.

This Sunday is the car show in Jordan NY. Always a great time', home made donuts, chicken bbq, and Ham sandwiches on rye bread. If you have never attended this show, you better mark it on you things to do list That show will be this Sunday 7/21/14, be there.

I am sending this message to the FAN editor, hopefully making the time deadline. Enjoy this nice Fall weather and hope to see at the Jordan NY this weekend. Phil CNYCC

GEORGIA ROVING
by Len Smith

September came early for us since our club, American Street Rodders, held our September meeting on August 25 to avoid a conflict with Labor Day. We had dinner, talked with some of the folks, and took care of business. Another good time.

Saturday September 6 brought around the monthly swap meet at Atlanta Dragway. Some of the "breakfast bunch" took a trip to Maggie Valley, NC for a big Mustang show, so I hooked up with GTO Russ and Leslie and Ratrod John and Carol. We wandered the aisles looking for bargains. We didn't find any great deals, so our wallets stayed closed. This was one of the larger swap meets, with about 200 vendors and lots of shoppers. I hope that some of them spent their money. I saw several interesting projects for sale, including 2 Willys station wagons (one a panel truck), a 29 Chrysler "puzzle" (see picture), a nice 50 Olds coupe, and a 1925 fire truck. In the display area, I discovered a 50 Olds Rocket 88, a couple of rat rods, a 50s Dodge pickup with updated running gear, a nicely restored 56 Buick 4-door, and a rarely seen early Lincoln Cosmopolitan. That evening was supposed to be our club's monthly cruise-in in Hoschton, but it had to be cancelled due to sandblasting of the water tower adjacent to where we park. Nobody wanted free paint prep. However, I have resolved my problem uploading pictures to my computer (my card reader was dead), so I have added more pictures to the "Members Photos". Check them out.

September 13 was the date for our monthly Maysville cruise-in. The weather was partly cloudy all day, but the rain stayed away until about 2:30. We had about 45 minutes of rain and then the sun came out. This shower may have been the reason that only about 20 cars showed up at the cruise-in. There were mostly 50s and 60s cars and trucks, including two 52 Fords, a 64 Bonneville, a 66 GTO convertible, a 60s Camaro and Chevelle, a 68 "Bullitt" Mustang fastback, 50s and 60s pickups, and a 62 Impala 409. Mustang John also debuted his new red 66 fastback at the show. Good looking car. We sat and talked with some of our friends and had a good time. Check out the pictures.

I need to put my 66 up for sale.. because of med .bills from my operation. It has 49 k original miles Low production # car. Radio delete 500 series 4dr .no post, 3spd on floor, original spare and T3 headlights ,mist blue. Original protecto plate in glove box! \$5,000.---call (315) 503-3041-----Nick.

HELP !!!

We need someone to take over planning events for our club activities. If someone is creative and has time to plan events and tours it would be great — however it also could be rotated throughout the club members so that, first of all, no one gets burned out but also that we may get to see some interesting things in other areas that we may not even be aware of. I'll be happy to keep the information updated on the net and , of course, in the Fan . Six of the months have events in place each year. We need events or tours for the months of February, March, April, May, August and October for each year. Please think about it and let us know at the next meeting. Thank you!

ACTIVITIES

any ideas??

TIM'S TECH TIME AND RAMBLIN'S

HI THERE , it sure is hard to believe another month has gone by already!

Sitting here trying to come up with something to write is not easy sometimes.

This month seems like the end of this summer is here already. Several cool nights are changing the scenery quickly!

We had a nice group from our club at the Wampsville car show. We even had a good start at McDonalds with everyone showing up on time. This helped us arrive on time on the field as a group. We had a good day there with snack food and comfortable chairs under the tent. I spent way too much time walking the flea market and car field. Congratulations to Kevin and Phil on their awards. Our next group venture is the Jordan Fall Festival this weekend. For this show, it is even more important to show up early!! It causes hard feelings if people are trying to "save spots" and you know how much we like to be together out back on the circle. This show often fills up and turns cars away for lack of space. So far this summer has been good to us at shows weather wise. We hope to finish up with weather just as good.

I have had a very busy time in my shop. Phil now has the Convertible he bought from Louie back on the road after a lot of hard work on all mechanicals. The engine was rebuilt, the differential was rebuilt, the brakes gone thru, New carpets and dash pad were installed with many other new trim items. I also installed a "quick shifter" shortening the pattern. It sure is a nice driving car now. The latest projects are 2 very dirty RL turbo motors. One gets a full rebuild, right down to the 1st screw. The other is a parts motor I bought. I will have a few trinkets from this project to sell. My winter project will be at least 2 motors, probably more, and a ton of work on my own vehicles. I hope to finally start on the long punch list for the Rumpy, and the Lakewood. The coupe will get body work started after I get other peoples cars out of there. I am finishing up a long late turbo project this week. I have resolved to not work on late model cars! That is a long story.

My latest fun project for discovery is taking vacuum advances apart to repair or change the specifications. I will be making a tool for recrimping the housing. I have done similar repairs to old style tachometers and speedometers. If this works out, it may be the answer to power / vs pinging.

Well we had another "work tech session", but no motivation to work mainly because of weather. So we enjoyed just talking and eating. Thanks to Gloria and Kevin for hosting again.

I still get calls asking for help selling Corvair parts and cars. If you are up to a "project", there is a "restorable" better than average body? 62 SPYDER coupe available in Sterling NY. There are also many parts available at Tom Zimmerman's in Rochester.

If you need details or contact information, please let Tim know. There is also a very nice Black 63 Monza coupe for sale in the Baldwinsville area. It is on the road, and looks nice.

I look forward to the last few shows for this year, then our annual Vermont trip.

See you soon.

WE WISH TO THANK ALL THE SPONSORS AND SUPPORTERS OF OUR CLUB AND THE RECALL. WITHOUT THE HELP THEY PROVIDE WE COULD NOT DO IT , PLUS THE WORDS " CORVAIR PARTS AND SERVICES" WOULD BE HISTORY..
