It seems Phil must be doing his last minute shopping for Martha and
didn't have time to send his report in this month

GEORGIA ROVING

by Len Smith

Not too much to report this month from my part of the Peach State. The only activity that I attended was the last swap meet of the year at Atlanta Dragway on December 5. The weather was clear but cool, so about 175 vendors were offering the parts and vehicles they hoped not to have to store over the winter. I hooked up with the usual bunch of guys so we could cruise the aisles and check out all the goodies. We didn't find much that tempted us to open our wallets. Lots of Chevy parts, some Mustang parts, and assorted parts for other makes. I checked out and photographed some of the project vehicles, such as a 46 Ford convertible, a 60s Ford pickup, a mid-60s Rambler in primer, a 42 Buick fastback that looked like a former mild custom, and an early 50s Studebaker 4-door with patina. In the display area were such cool cars as a 65 Comet, a two-tone 53 Chevy, a post-war Ford coupe, a 56 Chevy Bel Air 4-door sedan, a 60s Studebaker 2-door wagon, and a slammed GMC 4-door duall y. Check out the photos on the Member's Photos page. That's it for this month.

MERRY CHRISTMAS AND HAPPY NEW YEAR Y'ALL.

Short one for the fan...Janet and I have moved to Gallatin Tennessee just northeast of Nashville. The move was tough so we took a break and left for Tampa. I needed a guaranteed green palm tree Christmas. If I can find the Lombardo house we'll visit. Joined the music city club but as of yet not attended any function. My car is in Great Bend PA getting body and paint along with a matching boat from the sixties. Will be back late April to pick it up.

Other than that, please stay well.. maybe Janet and I will hitch a ride with Lenny and Sherry and show up at recall...then again, I doubt they could tolerate me for that long a trip. Thanks for all the help and friendship.

Darrell & Janet Varley

Happy New Year!

AFTER CHRISTMAS DINNER

January 3rd, Inn Of The Seasons, 4311 W Seneca Turnpike, Syracuse, 2:00.

Reservations ARE necessary. We'll have our own room again and order off the menu as we have in the past and have separate checks. PLEASE, and I can't stress this enough — please call or E mail Gloria to make your reservation at 492-9553 or E her at globug39@aol.com . It takes a lot of effort to set these things up and I know we all appreciate it but at most restaurants we do have to give them a head count and it's a real extra unnecessary burden to have to call everyone if we don't hear from you. Thanks so much for your cooperation and I hope we see you all there! Have a wonderful Christmas!

TIM'S TECH TIME AND RAMBLIN'S

HELLO AGAIN EVERYBODY !

Here I am again , yes, another crammed month. My plan was to work on my own projects until the first of the year , Then get back on others until they are finished. Well , not sure how that will work now. Finding more repair on the White Lakewood Monza as I dig into it. Main thing I am doing is fixing floors , then painting under the car before I bring anything else into the shop. Minor delays have been caused by finding a lot of hidden damage (by rust) and having to remove the gas tank for repair. I did not think the tank would be a problem because it had a new sender in it , and was FULL of gas. I drained it and went on to other work because it was old gas. A few days later , there was a small spot on the floor under it. It was weeping on a low corner. So I removed it for repair (or replacement) . I will continue on with painting under the car so I can install the new brake tubing , wiring harness , and all brake backing plates and brake parts. My main problem is space to put parts waiting to install. I had most inside the car until I started on the floors. Parts are all over the shop!. Add the other projects for others , including the Turbo motor , and the "Other motor". Now let me tell you a little about the other motor. It came as a turbo motor rebuilt in the past. I formed a list of wrong doings (by my standards) as I took it apart far enough to see what it is. Of course when you take things apart , they take up a lot more space! That one is set aside for now.

Other jobs waiting are 1 replacing a bad torque converter in a Rampside , repairing a powerglide with at least a serious sounding leak , repairing a 64 turbo motor with a #1 cylinder using a lot of oil (fouled a plug in @200 miles) and noises in the left rear wheel (wire wheel). I hope to add my own Rampside repairs from the oil spill to the list. This will have to include a new cover and frame , and clean motor (may have to remove it). I also sure hope to have the white lakewood (now known as "Daisy") in condition to drive by spring. These are large dreams to get done! The new motor and transaxle are ready to install after paint underneath, and all the brake parts are ready, along with a new interior carpets , door panels , and dash pad. I also have a Spyder dash and gas heater waiting. I will not be bored this winter! I forgot to mention replacing all wheel bearings.

As for last year , I felt very lucky to go on the car related trips we enjoyed! They included several local area "day trips" and the CORSA nationals , Vermont tour , and Clark's Corvair show by Bayshore group.

Today's tip: If you cant find it in Clark's catalog , or locally , just ask on Virtual Vairs group. You will probably get answers quickly!. I asked @midnight about a part needed for the gas heater install , and had 2 coming from California by 7 am!

We wish you Happy , Safe holidays , and will see you at the January dinner.

Regards , from the "little shop in Memphis (NY)" Tim Colson http://www.cnycorvair.com/Little_Corvair_Shop.php

Thanks again to Jim for the wonderful website work!
