## PREZ SEZ

. Just got home from vacation with my wife and had a great time. We took a 5 day cruise to Mexico, not Mexico NY. I probably gained more weight but I am not going to get the scale out to see how much. The day we left it was -21 degrees F. and it was 40 degrees when we got home. A great vacation!

I hope this mild weather continues through March, it is almost time to get our Corvairs out of mothballs and back on the road. Hopefully Spring is not to far away. I should have been a weather man.

I have to hurry along this message, deadline is quickly approaching and the Editor does not want to be kept waiting. I hope to see most of our members at our next meeting at Denny's in north Syracuse. Till next month, stay warm.

Phil

## GEORGIA ROVING

by Len Smith

Tim was partially correct about why I had no news last month. There hasn't been much car show activity in our area and we did have some cold and nasty weather (snow in the mountains north of us), so I did spend time indoors. As for basking in the sun and waiting to use the pool, the sun is warm, but the water temperature in the pool is a balmy 45 degrees, which is a tad too chilly for me.

We did have our first swap meet of the year at Atlanta Dragway on February 13. The day was sunny but cool (in the 30s), so the number of vendors and shoppers was low. I met the "breakfast bunch" there for a chilly swift pass through the aisles. We saw a few project cars and lots of assorted parts. No Corvair parts. George bought an intake manifold for one of his projects, but the rest of us weren't tempted to buy. There were also fewer cars in the display area, but Richard did drive his 69 Z-28 Camaro with its new 383 stroker engine. Check out the few pictures on the website.

### A MESSAGE FROM NICK

I go in for aortic valve replacement on Feb.23rd .I'll show you my scar at recall.

Good Luck with the operation Nick. Our prayers are with you for a very successful operation and quick recovery. Give us an update as soon as you're up to it.

### PLEASE NOTE

Club dues were increased to \$25 at a previous meeting. Dues are due May 1st but if you send them in early please remember to send the new rate. Our back page of the Fan has now been corrected to show this increase. My error in not changing it sooner. Thank you for your payments and cooperation!

Thank you so much for the flower's. The brightened my day. I am mending well. I very much appreciate you thinking of me.

## TIM'S TECH TIME AND RAMBLIN'S

HELLO AGAIN EVERYBODY !

Here I am again , yes, another crammed month. This last few weeks has been mostly on the white Lakewood Monza . It has been “fun?” working on some of my own junk for a change. I am still figuring out how I am going to clean the gummy oil residue from the inside bed area , and the motor on the Rampy. I am going to have to build a new framework and have a new canvass made. I also have to buy a new 10X10 tent to replace the oil soaked one. I am very lucky the tables and chairs for shows were not in there!

The white wagon project (called Daisy) is coming along slowly. All brake work is done , and the new Hands wheels with new Michelin tires are now on the car. I just finished the ugly job of installing the Spyder dash , after modifying the wiring to fit. Everything seems to be working. The motor sounds great. I just put a dual Exhaust with Crossover pipe on it. I made some quiet low restriction mufflers I had here fit. They are a touch long , but will work fine, and sound nice. I made tail pipes to come out to the side like a factory car single , but bigger diameter. Next hurdle is a good fitting hanger system. Putting this car back together is like building a car from ground up. I keep finding hidden projects. When I removed the factory defrost pipes to add a gas heater , I found why the passenger door did not close. There was only one loose incorrect bolt in the lower hinge (hidden by the defroster pipe), and loose rusty tools lost in the panels. Somebody must have given up on it. I had to mess around with hatch latch and readjust that also. I have lots of projects left to do , but most should? Not be too tough. They removed the inner seat belt mounts , so I have to make up new ones. Trunk floor needs a patch , then paint and rewire lights , horn , and wipers. I am trying to have it ready for June registration and Inspection. Now add to that the “Phil Project” for this year, plus a transmission reseal job , and other large projects waiting , and you can see that I am not bored. I also like to spend time with my Ham radio projects. I think we have a lot of fun things to do as a group this year, so I hope we have good participation. It will benefit all of us that choose to do so. Please try hard to join us at these events. It takes work to plan and debug any trips and shows we attend as a group, and most of the time all you have to do is show up and enjoy with us.

From the past, I have been hearing from the Zinteck's about getting the Yencko stinger back together. The memories of this project go back almost to the beginning of the club. The father , Ed , was one of the most inspiring guys in the C N Y C C founding group. He bought the boys that car “to keep them off the streets “ and they admit that , along with scouting worked well. We look forward to more from them soon! Also , Bruce Marsden sent me a bunch of scanned picture memories from @1982 , some from our National Convention. What good times we had.

Regards , from the “little shop in Memphis (NY)” Tim Colson [http://www.cnycorvair.com/Little\\_Corvair\\_Shop.php](http://www.cnycorvair.com/Little_Corvair_Shop.php)

Thanks again to Jim for the wonderful website work!
