THE PREZ SEZ

December 2016

Our Thanksgiving Dinner was held November 13th at Tabatha's Restaurant. It was beautiful day and we had a great turnout from the club. We enjoyed a delicious Turkey Dinner and home made pie for dessert. Thank you Rita for making preparations and reservation for our annual club Thanksgiving get together, a super meal for all who attended .

Winter has returned with about 4 - 5 inches of snow and more snow forecast for tonight, also cold and windy. I hope everyone had wonderful Thanksgiving at home with your family. I hope everyone has survived Black Friday, Christmas will be here before you know it. Wishing all club members and their families a Merry Christmas and a Happy New Year

Our next club get together will be our annual after Christmas, Christmas party in January. Contact Gloria for reservations and info. Happy Holidays
Phil CNYCC.

GEORGIA ROVING
by Len Smith

Another month, another swap meet at Atlanta Dragway. The weather was sunny and mild - a good day for shopping. I drove my turbo Corsa (with its new fuel pump) to put it in the display area. There were about 30 cars on display, including a clean 57 Chevy 4-door station wagon, a full-race Nova (trailed in), a bronze early 50s Chevy pickup, a Model T sedan hot rod, and a survivor 65 Nova station wagon. I parked just as Russ pulled in with his GTO convertible, so we went in search of some of the "breakfast bunch". We found some of the guys, then we went looking. I did find a set of Corsa hubcaps - don't need them, so I didn't buy them. Lots of Chevy parts and a bunch of Ford parts - nothing any of us needed. I did notice a few interesting project cars - a 30 Model A tudor, a 68 Valiant street and strip car, a "needy" 55 Chevy 4-door, and a 50s Morris Minor convertible. We left after a few hours with full pockets and empty hands. More pictures on the website. http://www.cnycorvair.com/Members_Photos.php

On Saturday, November 12, we attended the fall show at Goodmark Chevrolet in Commerce. Sher's shoulder is getting stronger, so she drove her Rambler and I drove "el turbo". The weather was again sunny but cool and a little breezy. Russ and Leslie were there in the GTO and Richard brought his 69 Z-28. Some of the others from the "breakfast bunch" and their wives stopped by briefly to check out the 60 or so cars in the show. We sat around, talked, ate free hot dogs, and enjoyed the sunshine. Some of the cars that caught my eye were a 32 Ford 3-window coupe, a restored early Monte Carlo, a replica fiberglass 37 Ford, a modified 34 Buick 3-window coupe, a topless 70s Blazer, a green 70 Challenger with a later Hemi (won a Top 20 plaque), a purple Chevy SSR, a nice 62 Grand Prix, and a 54 Ford mild custom. We left after the awards and the engine giveaway (we didn't win it) and cruised home to feed the dog. Check out my photos. Hope y'all had a good Thanksgiving.

WELCOME TO WINTER 2017 This year sure started off big time!!

TIM'S TECH TIME AND RAMBLIN'S

HELLO AGAIN from the little Corvair Shop in Memphis NY.

First , I am sure we all enjoyed our "welcome to winter" For a while there we wondered if it would ever stop blowing and snowing. I included a few pictures of what happened here on page 2

Out in the shop I have started on a large project punch list on a very interesting car , a rare Glen Pray Cord 810 replica. This car was made in Oklahoma back in 1967 . There were @ 97/ made . This one is a 140HP 4 spd Corvair powertrain in the front. This car serial number indicates it was originally a 180HP turbo car. It came here from near Chicago Ill. It is in very nice shape , showing a little over 10,000 miles. It is a touch different to work on , and I have to remove the motor to do some of the work. First step was to remove the front Torsion bars. With the help of a former partner and expert suspension guy , we have torsion bars off it (it was not that bad to do after all). I have all the carbs apart and cleaned . I am redesigning the secondary carburetors like I did on Phil's 4 carb Loadside , which runs great. The wiring harness is burned badly in several places , so I have to replace it , or rebuild it. I got the one listed in Clark's catalog as original , but not sure yet if I will be able to use it. Cosmetically , it very dirty from bad storage . Looks like I have a long fun winter ahead. I am putting the Cord aside for a few days to finish work on some motors I have in process. Pictures of ongoing work here are being sent to the webmaster often , so check it out. http://www.cnycorvair.com/Little_Corvair_Shop.php the upcoming Cord , is now "ongoing"

I also hope to finish a few details on the Lakewood this winter. My gas heater install went OK , but one flap door works too hard , and bent the cable. So now I will take it out and repair it somehow.. The car seems to run good , but needs the back springs and shocks , along with a bunch of rubber bushings replaced. At least the car looks much better now.

Mark Fausak is nearing the final stages of cleaning out Ron's shop . It is supposed to ready for sale the first of December , which is looming fast!. The gold 61 4 dr that Ron was working on is up for grabs CHEAP . It runs good , has new brake parts and other things redone m but needs the whole front floor replaced. IF you want it , better get with Mark , it is too good to part out , but will need interior work . Outside looks good . IF I get it , I will part it out to save the good stuff from the crusher. But I have a space problem , and moving it in salt will not help, Plus it will cost me for towing. all glass and doors look good, and powerglide and motor are way better than most 61's you see. I told myself a lie the last time I parted out a Corvair here , that it would be the last one.. I just find it hard to see them go to a crusher , when a lot of good parts are there. Even some of the correct hardware is getting expensive to buy. I try to clean , sort , and save all hardware from the cars I part out. Yes , I am running out of room here fast.

It is hard to believe another year has gone by already. Next year is another Baystate Corvair show at Clark's year. We try to attend them now. They are every other year at Clark's Corvair location in Shelburne Falls Mass. It is always a fun packed weekend. The year after that we hope to attend the Nationals in Pittsburg PA.

We hope you all have a good Thanksgiving this week, and Happy holidays in December

See you all at the after holiday party in January .

I have included pictures from some of the past memories and events we attended on the picture page.

I want to remind every one that a newsletter is an important part of a club , and in our case is REQUIRED in order to maintain our chapter status with CORSA . Without CORSA , we would not be able to do a lot of the things we do , including the Recall. SO please help support the FAN by submitting articles on time (or even early?) each month. . Many thanks to those who do.

We hope to see you all at our next event.

Regards, Tim Colson
