Its that time of year to put our vehicles in Mothballs till next year, have a Happy Thanksgiving. Phil CNYCC

## GEORGIA ROVING

by Len Smith

We're finally getting back into some car "stuff". Sher's new knee is healing well and she is no longer using her walker. We missed a couple of Club activities in September (Fall picnic and big car show), but we did make it to the monthly meeting on October 1 and to the last cruise-in for the season in Hoschton on October 6. We didn't drive a collector car, as we were coming from a restaurant in Buford to celebrate my birthday (age unavailable). We had about 30 cars there, and the weather is still hot - in the high 80s every day. Our trees and plants are still mostly green - no peak leaf color for a while yet. I'm not complaining. The time change next month will end most of the cruise-ins, but daytime shows will continue. We'll try to make some of them. A few pictures from Hoschton on the website.

We had a visit from Lew and Clara Halstead on the 8th. Lew piloted the Queen Mary (40 foot motorhome) easily into our drive-way and demonstrated how to set it up. It's really impressive and truly is a home away from home. We fed them supper and then sat and chatted for a while. They had to leave early in the morning in order to see family in Maryland, so we hit the sack. They elected to sleep in the motor home, even though we had prepared a room for them. They said that their bed was what they were used to, and it was quite comfortable. Bright and early (before dawn), we said our good-byes, and helped guide Lew out of our drive-way. He handled it like a pro and we sent them away with best wishes for a safe trip. It was good to see them again.

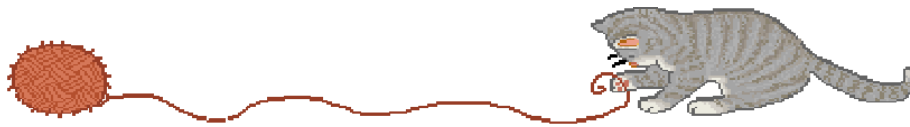

Saturday, October 13, was a good day for the combined swap meet/ Nostalgia Drags at the Atlanta Dragway. I drove my turbo Corvair to put in the display area again. I met up with a couple of the usual crew, and we cruised the vendor aisles. George found a set of rims for one of his projects; the rest of us were cheapskates. We took a break to watch some of the race time trials. Lots of old-style gassers, some front-engine dragsters, and assorted other throw-back rides. Lots of noise and some pretty quick times. I took some photos to post.

DON'T FORGET TO SET YOUR  
CLOCKS BACK ON SUNDAY  
NOVEMBER 4TH

A proud Grandpa's latest updates of our newest member.  
It doesn't get any cuter than that!

### NOTICE

It was suggested at the last meeting that maybe we could hold our meetings on a Sunday afternoon so everyone would be able to drive in the daylight during the winter months. Lee is checking on a spot that might be available to us so please be aware that the November, January, February and March meeting day and place may change. Tim will send multi notices out to remind everyone if this happens but watch your E mail.

Meetings are in the side room, we order off her regular menu and will be given separate checks. Come early and enjoy a real home cooked meal!

Pam stated that she finally has the contracts for Recall and for the block of rooms which will be 15 for this Recall. All is finally going well in regards to Recall and the hotel but the suggestion was made that we all take a vote for 2020's date since it was brought to Pam's attention that dates are booking quick and will not be held open, and that we book early and put down the deposit so that we don't deal with this problem again next year. A vote was taken and passed. The dates for 2020's recall will be June 12<sup>th</sup>, 13<sup>th</sup> and 14<sup>th</sup>, and the dates will be booked with the Hilton Garden Inn.

New Business-Martha has asked at the last meeting if for the winter months the meetings could be held in the afternoons and the weekends so that people didn't have to travel at night and through the snow, it was discussed and decided that for the November meeting we will meet after the Thanksgiving dinner which is November 11<sup>th</sup>, 2018 at 12:00, and then we don't meet in December but we'll meet up again in January for our Holiday Dinner on January 6<sup>th</sup>, at which time we will hold a meeting after that dinner also and then we'll change the time on our February and March meetings and return to our regular meetings in April.

## TIM'S TECH TIME AND RAMBLIN'S

HELLO AGAIN from the very busy little Corvair Shop in Memphis NY.

WE still ask for material for the Fan each month , knowing what the results will be.. Nobody else has pictures? Or other content for the Fan? Thanks to Len Smith for his interesting submissions from Georgia.

Last month was a lot of uncomfortable work for me. I spent many hours under the dash of the Cord project sorting out a real mess of wiring. And soldering wires while laying under there is not fun. The old harness had several splices that were just twisted together and taped , maybe from the factory. Working without any documentation has made it a crazy job. The replacement harness is not exactly the same , and the old one had several cuts and splices that did not look like factory work , but apparently was. I have it cranking and running , and some but not all accessories working. There is still a long way to go and I am desperate to .get it done before this winter!. Every aspect of this job has had hidden traps to over come.

We have driven the Rumpy a lot this year. We would have done more with it , but we opted for the comfort of air conditioning a lot this summer. We did get to go on a few very nice tours this summer. The truck runs great , but still uses a lot of oil since it got cooked in the mountains of Massachusetts. We get to do that again in 2019 , but I will take a better route this time. I hope to get time to tear it down and repair the motor , plus clean it all up again from my major oil spill. I won't tear it apart until I am sure we are done with it for the season.

In my "spare?" time , I am cleaning up some of the motors I bought from Ron's estate to rebuild them. I hope to end up with 3 or so this winter if things work out OK. I have a bare RL (65 turbo) block extra to sell from that stuff. I have several power-glide transaxles to sell also. Most are 65, so transmissions will fit anything but differentials are 65 up only. Some of the simple things you do not think of are starting to be hard to find. I am trying to keep parts in some sort of order , but it is not easy.

The club trailer display will take hard work to repair and upgrade. Most of it I can do myself , but lifting the motor high enough to get the oil pan off to dry it off and seal it will be a chore. I almost think the club should consider buying an aluminum pan for it , so it will be less apt to leak there. This is the motor Ron was working on for his 4 door project car. It runs great , I put a set of my carbs on it and went thru the generator and starter. It has one lifter that is stubborn , noisy for a long time. I guess I better change that. It has new viton seals in it. This time I hope to have a better dash panel for it. I have some here to work with.

I am having trouble with AOL sending bulk emails. It MAY have been because someone put a newsletter mail in the spam folder . **Please let me know if you want to be removed from the list!** It will create a situation VERY hard to overcome for the rest of us if you just put it in the Spam folder. I have spent several long hours on the phone trying to get thru a lot of hoops. (over 2 1/2 hours at one of the calls!)

It was nice to a good turn out of Corvairs at some of the shows this year , I hope it keeps up like that.

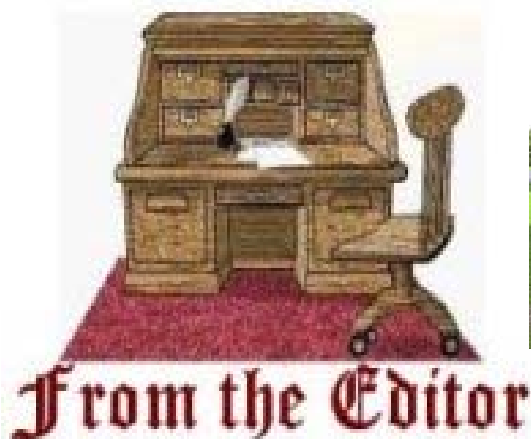

See you all at Tabitha's for our annual Turkey dinner. This year seemed to go by very fast!
