MEETING THIS THURSDAY PHOENIX OTB meeting starts 7PM  
We get there @5 to eat first.

## THE PREZ SEZ .

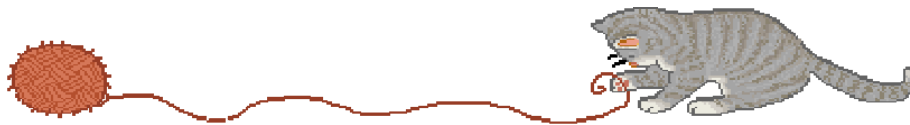

Happy 4th of July, hope everyone enjoyed the holiday this year. At the time this newsletter is being prepared it is about 90 degrees outside and humid. I am getting ready to go to Dave's Diner in downtown Schuylar NY. Great cruise in, lots of cars, and great food.

I am sorry this edition is late, but good or bad, here it is. Our next meeting is Thursday, July 1st, hope to have a good turnout for this get together. I am sure we will have many things to discuss. It is certainly great to be back together again as a club. Hope to see many members in attendance on that evening.

I will be making plans to attend the Corvaire show at Chattanooga TN. It is a great show, which is held in August. Not many other shows being held this year.

Hope everyone has stayed healthy and avoided the Covid 19 Virus. Hope to everyone at our next meeting. Phil CNYCC

### PLEASE NOTE

Meetings are returning to the first Thursdays of the month. Located at the OTB Phoenix Sports Restaurant. We have our own room to eat and have our meetings. Meetings start 7:00 — please come earlier if you'd like to eat so we can start the meetings on time. Nov, Feb & March we'll meet on Sundays at 1:00. Meeting at 1:00, come earlier to eat.

## ACTIVITIES

Mike, owner of the OTB has agreed that we can hold our regular Thursday evening meetings the first Thursday of each month.

As mentioned in the letter I E mailed to everyone in the club I will no longer be trying to plan events or activities. If at any time anyone has an event or activity you'd like to present to the club, please feel free to plan it. Send the info to Tim or Rita and it'll be printed in the Fan.

Call Tim or Rita at 689-3366 or E mail Tim at N2VZD@aol or ritac44@aol.com

If you know of shows that may be of interest for our members to attend let us know so we can pass them on. Since there's little interest in doing activities as a club I'll put the shows on the activity list so anyone interested in going will be aware of what's out there. Be sure to send us the info. Thanks.

TIM'S TECH TIME AND RAMBLIN'S

Greetings from "The Little Corvair Shop in Memphis NY". Some months I have a hard time getting inspired to get this column together. Then I get rolling and run out of space! Sorry I am slow at it , but I am very busy here wondering when I can "retire"

Seeing as we get very little or no input from members for the newsletter , I MAY not put a newsletter out every month. The decision will be made at deadline time. Like everybody else , we have other things going on , BUT I feel it is important that a newsletter be put out there each month , if nothing else to maintain our club chapter with C O R S A.

Sometimes I wonder if anybody reads newsletter. I can tell most often by questions asked at meetings. For the time being , Rita is not able to help. Also it is harder to get to shows now. The Rumpy is registered for the Jordan fall festival. **I hope if you plan on showing your car , you will get to the site EARLY. It is hard or impossible to hold that wonderful spot. Early needs to be 7AM. The bonus of that spot is there is space to set the tents and tables up. Not many other spots near food and toilets with that feature.** We have always had a good time at Jordan , and hope Covid does not totally ruin it.

Out in the shop , I finally took the time (2 days) to fight with the rebuilt vent window install. 2 screws (the same one on each side) were rusted in place so bad , I almost had to damage the doors to get them out. I finally got them out OK , and the rest of the install went OK. So that was practice for Phil's van. But of course special nut plates and other small parts were missing. So I spent time looking thru my stuff and only missing one window mount part. This truck has been one missing part after another , and other frustrating issues. I am also wiring in a 4way flasher switch. from late harness to early column and switch which is a real pain. After that . I will install the Spyder dash and get things running (I hope!).

I would like to get the club display motor project going when one the others leaves here. At some point I am going to need help lifting heavy objects and putting things together.. I want to remove the motor from the trailer and drain the oil for now to get it out of the way. Then I think the 64 Turbo motor is very rebuild able with minor expense with what I have here. It looks like everything for that motor is there. A lot of cleaning and painting and it should become an eye catcher at shows. I hope to see some interest in this project sometime this fall and Winter. My problem is I am no longer able to do much heavy lifting! I need help if this project is to move forward...probably sometime this winter.

Also please send pictures of interest to the club website when you can. Let the rest of the Corvair world know what's going on here. You must be doing something to or with your vehicles? Let us know what you are doing.

That's it for now From Tim in Memphis (NY).
