## Bacon and Egg Breakfast Tarts Makes 4 small tarts

" Perfect selection for a brunch, but also convenient enough for serving on a weekday. Instead of Canadian bacon, try using 1/2 cup diced cooked ham or 1/2 cup crumbled cooked bacon. Place 2 tablespoons of meat into each pastry cup. "

- 1 (11 ounce) package pie crust mix
- 1 (6 ounce) package Canadian-style bacon
- 1 cup shredded Cheddar cheese
- 4 eggs
- 1/4 cup milk
- 1/4 teaspoon ground nutmeg
- 1/4 teaspoon ground black pepper

### Directions

- 1Preheat oven to 425 degrees F (220 degrees C).
- 2Prepare pastry for a one crust pie as directed on package. Divide pastry into 4 equal parts. Roll each part into a 6 inch circle on a well floured, cloth covered board with a floured, cloth covered rolling pin. Fit pastry over backs of large muffin cups (3 x 1 1/2 inch), or 6 ounce custard cups; make pleats so pastry will fit closely. If using individual pie pans or tart pans, cut circles 1 inch larger than inverted pans, and fit into pans. Prick surface. Place tarts on an ungreased cookie sheet.
- 3Bake until light brown, about 8 to 10 minutes. Cool 5 minutes, and carefully remove from cups. Reduce oven temperature to 350 degrees F (175 degrees C).
- 4Place 2 bacon slices in the bottom of each pastry cup. Sprinkle cheese over the meat, making slight well in centers. Break 1 egg into each. Add 1 tablespoon milk into each tart. Sprinkle with nutmeg and pepper. Place tarts on an ungreased cookie sheet
- 5Bake until eggs are soft cooked, about 15 to 20 min

### TIM'S TECH TIME AND RAMBLIN'S

This month has been another busy one. It was nice to see good attendance at the last meeting. Sorry to see OTB go , they did a nice job for us.

I have a lot going on now at home and other locations. Not much in the shop. My main concerns are Phil's 8 dr project , and my pearl white 62 Lakewood Monza. I have not a clue why so many things were messed with after I sold it. I have corrected a boatload of issues. I hope today's work will be almost the last of it. The biggie was the transmission (after I redid the motor from detonation damage ) . Apparently the modulator went bad (it was a new one not long ago ) creating very harsh shifting. Must have been driven a while like that doing damage to the flex plate and crank gear.. So last couple days were mostly taking the valve body out to change a destroyed E clip . Today it is back together all sealed up , waiting until tomorrow to put fluid back in. I have a few other small items to finish. Worst one will be pulling the spyder dash and repairing damage done to it and the column by previous owner. I am anxious to finish and drive it some before the weather gets bad. I may end up selling it anyhow. The car hobby is getting to be too much for me and my wore out body. I also have long since given up on my long time model plane hobby. We are working hard cleaning out a lot of "stuff" here and hope to have a "HUGE" sale soon. A lot of Ritas things and other items of all kinds need to move on. Most of the parts etc in my shop need to move on also. I hate to see it go to a dumpster.

I need to find a new custodian for the Engine display trailer. It also is now a burden for me. It needs finishing , and I asked for help with it long ago , but I guess there is no further interest in it. The motor on it was a 63 102 hp, one of Ron Fausak's projects before he passed away. Maybe it should be sold to another club or something. It's a great idea , but it takes work .

We went to the Minoa "Orphan" car show for a while Sunday . It was nice to see a few Corvairs there including some from the club. The VW show was another nice day with a few Corvairs on Display. It is nice of them to have a class and trophies for Corvairs.

Between Car shows and Radio events , along with lots of medical appointments we have been very busy this year.

That's it for now From Tim in Memphis (NY). [http://cnycorvair.com/Little\\_Corvair\\_Shop.php](http://cnycorvair.com/Little_Corvair_Shop.php)
