Happy New Year!

. Presidents Message,

First order of business, Thanks to all who supported me in my election to President of our fine organization. I will do my best to keep our club going strong. Congratulations are also in order to our other new Officers for 2011. We have a great team in place and will continue to keep “Our” club moving forward.

Christmas has come and gone, well almost, we still have our annual Christmas Party coming up, hope we have a good turn out on January 9th. Contact Rita as soon as possible for reservations for a great get together.

Do any members out there have new additions (corvairs) in the past few months. I know of one out there in Scriba NY. I have no new additions at this time, but I am working on it. All members, keep us informed of any new toys that you may have acquired in the past few months. I am sure that our members would be interested in any new (old) vehicles that you may have taken possession of in recent months.

Well, let me close this message with a Happy New Years Greeting to all for the coming year. Hope to see most of you at our next meeting, our Christmas party, or one of our upcoming functions. Phil

Directions to Tassone's

Tassone's is located right on the corner of Dexter Parkway and Rt 370 in Baldwinsville directly across the road from Cooper's Marina. From the south, take Rt 690 north and go to the 2nd Baldwinsville exit (this will be Rt 370). Turn left off the exit and go about 1/2 mile. It'll be on your left. From the west take Rt31 to the 690 interchange and take it north over the river to the Rt 370 exit, left off the exit and go about 1/2 mile on the left. From the east take Rt 31 to the center of B'ville — go straight and continue on Rt 370 west — it will be on your right about a mile (or less) from the 4 corners in B'ville. If you need help getting there, you can call Tim's cell at 415-4243 or Rita at 412-1880.

Once again, I absolutely need reservations for the head count for the restaurant. It's always a good time since all the Holidays are over and we can just sit back and relax! All, For some time now I have been talking about some of the challenges that CORSA is facing in these changing times. Today I am announcing one of the changes the CORSA Board has made to help with these issues. Starting in January of 2011 CORSA will publish (9) 32 page issues of the Communique. The production schedule will be as follows: January-February, March, April, May, June, July-August, September, October, November-December. This is an exciting and innovative approach to how we communicate in this organization, and it will not only save CORSA a significant amount of money in 2011, but will present us with the opportunity to include more content in each magazine.

In addition to the new production schedule, CORSA has a new Feature Editor. Terry Kalp has stepped forward and volunteered to take on the position and will add a fresh, new perspective to the look and feel of the Communique.

Also, the CORSA Board members, along with the website committee and other individuals are at this time alpha testing the new website. The site looks and feels completely different than the old site and I know you will be very happy with the end results. I am hoping that sometime in early 2011 we will be able to go live with the new site. I will keep you posted.

Please feel free to post this message on your websites, put it in your newsletters, and send it via e-mail to your fellow members.

To the Powers That Be:

This is a damned good idea. It's one of the best things I've heard to date which could actually cut down expenses without causing grief

among the membership. Jan-Feb, not a lot is happening... winter places a bind on events and those that do come off will be fully covered by the combined issue. Jul Aug, same thing only for the opposite reasons, Nat Convention happening about that time and everybody else is staying inside by the AC or are vacationing at the beach or the lake or snowbirding someplace. Nov Dec, same as Jan Feb.

This is a good plan.

And Kudos to Terry for stepping up. Likewise, to the board for making a move. Sometimes it seems that with almost any organization such as CORSA, that nobody could ever agree to even disagree on a plan to reduce costs without conflict. It's good to see something get done. Tony..

TIM'S TECH TIME AND RAMBLIN'S

GREETINGS , from the little shop in Memphis , NY.

This last month was sure a full one here. I am still working as often as possible in my shop. Not much on my stuff , but a lot of interesting work. I am working on a motor out of Phil's loadside "getting it running" to check it out , then I will be building a 4 carb motor to install. Also I will be checking out a gas heater to install. This truck came from Arizona with not much in the line of heat. I have a long list of things to do on it.

I also hope to work on the wiring in the 64 coupe when my back lets me. In between all of this , I have a lot to do with radio club systems now also.

The large amounts of snow here was quite a project also. I waited until it got to @30 inches or so to come off the shop roof in the middle of the night. This created a mess against the back wall of the garage (lucky it did not damage the whole wall!) which blew the back door in , damaging the door jamb. That was a fun mess to clean up.

Last year was a hard year for me , after that silly fall I took. I will be glad to see it end.

We did have a lot of nice rides in the truck , about 4000 miles in spite of the cam gear noises. We got to go to the Bayshore show at Clark's , and a few other local shows nearby. We continue to be the only couple left that has made every VT tour (except for our leaders , the Cotrofeld's) . We look forward to more travels in a CORVAIR again soon. My shop is packed with projects , with short bursts of progress. I worked on collecting the larger parts I need to put the "crampside" together . It will be a while before I get to work on it in Ernest , but it should be fun. It sure will be different (at least around here) . Phil plans on making the loadside as nice as the rampside. He also is working towards being an ultravan owner soon. He has quite a story about looking at Ultravans , including a trip to Florida to look at one (with a 2 car trailer behind him!) and coming home empty.

Phil , our new president , is going to try to bring the club back "up to speed" in many areas , so if you can help , or have ideas , get with him soon.

Our annual thanksgiving dinner was a great success at the new location. Next we have our annual "after Christmas" dinner at Tassones , another long standing tradition. **If you plan on coming , please contact Rita NOW , we have to report numbers to Tassone's.**

After the holidays , I will be hard at it most days in the shop again.

Sherrie and Len are preparing to move to Georgia sometime soon , they have purchased a nice home there , and are in the unenviable position of preparing to sell their home here and move. He sold the convertible in the barn , and will be cleaning out soon. That is what I call "intense work".

The club will miss the hard work they have done for us! Many thanks.

I have not had any other reports or pictures sent to me , so that is about it for now. Please send me pictures and updates on your projects!

Everyone have a good , safe , New Year.

Regards, Tim

WE WISH TO THANK ALL THE SPONSORS AND SUPPORTERS OF OUR CLUB AND THE RECALL. WITHOUT THE HELP THEY PROVIDE WE COULD NOT DO IT , PLUS THE WORDS " CORVAIR PARTS AND SERVICES" WOULD BE HISTORY..

I found two more Corvairs at the U-Pull-It yard at 7030 Myers Road in East Syracuse 13057 315-656-7533. They both appear to be '69. Both are 2-door automatics. One red and the other white. There are a lot of good parts left on these and I hate to see them go to the crusher. The glass is good and there are at least two good doors. Bumpers need chrome but otherwise good shape. No engine in the red one, auto trans in the back seat. White one has engine and transmission intact but no carbs. Both have AM radios but the knobs are gone. Good instrument clusters. Neither has any interior parts of any value.

Please forward to any Corvair enthusiasts that could use some parts before it's too late.

THESE WHEELS ARE FOR SALE CHEAP THEY NEED CLEANING , BUT NOT BAD. THEY ARE 2 DIFFERENT SIZES , WIDER REARS. NO CENTERS (AVAILABLE THRU MOST CAR PARTS STORES , INCLUDING N A P A) TALK TO PHIL , THEY CAME OFF A GREENBRIER I PARTED OUT FOR HIM. (315) 527-4021
