THE PREZ SEZ November 2024

It is hard to believe but we are approaching November, Christmas and a New Year. Sorry I missed our last meeting, thank you Lew for running the meeting. Our next meeting will go back to winter schedule on Sunday afternoon. The meeting will be held at Jakes Place on November 10th at 2.00 PM. Noon is time to be there if you are going to eat. Also this month is Turkey dinner for the club at Jakes Place.

THANKSGIVING DINNER WILL BE AT JAKES GRUB AND GROG ON 11/10 AT 2PM WITH A MEETING AFTER DINNER.

AFTER HOLIDAYS PARTY 1/5/25 2PM AT JAKES GRUB AND GROG. SIGN UP SHEET WILL BE SENT AROUND AT NOVEMBERS DINNER/MEETING.

NO DECEMBER MEETING.

That is all I have for this month, hope to see everyone at the next meeting. Phil

**Meetings are now on the first
SUNDAY at Noon.**

AT JAKE'S GRUB & GROG

BUT THIS TIME IT IS AT 2PM FOR THANKSGIVING

THANKSGIVING DINNER WILL BE AT JAKES GRUB AND GROG ON 11/10 AT 2PM WITH A MEETING AFTER DINNER.

Kitchen Corner By Rita, KC2GFT

Caramel Apple Pork Chops

2 tsp oil
4 boneless pork chops
2 Tbl brown sugar
1/8 tsp cinnamon
1/8 tsp nutmeg
salt & pepper to taste
2 Tbl butter
2 granny smith apples, cored, peeled & sliced
garnish; 3 Tbl chopped pecans
Heat oil in skillet over med high heat. Cook chops for 5 to 6 mins on each side until browned and fully cooked. Remove to platter and keep warm. Combine brown sugar, cinnamon, nutmeg, salt & pepper. Add butter to skillet; stir in apples and brown sugar mixture. Cover & cook for 3 to 4 mins until apples are tender. Remove apples to serving platter. Continue cooking mixture uncovered until sauce thickens slightly. Spoon over apples and chops. Garnish with pecans.

Honey Glazed Carrots
1 lb carrots, peeled & cut into 1 inch pieces – or 1 lb baby carrots
2 Tbl butter, melted
2 Tbl honey
salt & pepper to taste
Spray a slow cooker with veg spray. Add carrots. Drizzle with butter and honey. Season with salt & pepper. Cover and cook on high for 2 ½ to 3 hours until tender and glazed.

Cranberry Cheesecake Fluff Salad
2 c fresh cranberries
1 c sugar
2/3 c pecans, chopped
1 c crushed pineapple, drained well
8 oz cream cheese
2 c heavy cream
2 c mini marshmallows
Put cranberries in food processor and chop. Add ½ c of sugar and mix well. Cover and leave in fridge for 1 hour or overnight. Remove from fridge, add pineapple and pecans and stir. Combine cream cheese with ½ c sugar and beat until creamy. Add heavy cream and mix until well combined and firm. Fold in cranberries and mix well. Gently mix mini marshmallows in. Cover and put in fridge 3 to 4 hours

NOTE: Rita was also a licensed amateur radio operator and was very proud of her achievement getting the General Class ticket (next to top level!).

TIM'S TECH TIME AND RAMBLIN'S

Well here I am again with no ideas on what interesting things to write about that would make decent reading. This newsletter takes a LOT of effort for me every month and as you know, I have been trying to keep it alive a long time.

I am trying to get used to my newly professionally updated laptop. First issue is compatibility of the program I use to do the newsletter. I most times use 2 or more computer systems when working on it moving between locations. Just another learning curve I do not need. I recently started the tedious task of loading all needed files and programs on 2 new to me, mini computers. Complicated task for sure, but when I get done I will gain a lot of space in my "setup". One computer system is for my ham radio things, 2 others for personal stuff such as doing this newsletter and working on the thousands of pictures I take. Using large external hard drives for files lets me move things around by just switching USB plugs. When I move around my important stuff is in my pocket on a good size thumb drive, so I can work on things anywhere I go. I keep a Laptop handy also.

My Corvair life sadly has slowed way down. Finding time to work on the projects in the shop is tough now. It is hard to do things a few minutes or hours once in a while. Getting under a dash is tough for me also, and it is custom wiring and hook ups I have to do myself. Then I am stuck with 2 nice motor projects I want to finish myself and hear them run. One is FC Automatic another 110HP automatic. I still have other "cores" from the Corvair items I purchased from Ron before he passed away and another estate over in East Syracuse. Quite a lot for a small guy like me to undertake! So basically EVERYTHING here is for sale before some one else sends it all to scrap after I am gone. Same for my Ham stuff. Thousands of dollars of components that not many people would know how to use these days going to waste, including extensive collection of books for cars, ham radio, and other subjects of interest. I got caught holding all this stuff as technology changed and put most (BUT NOT ALL) online. I have CORSA literature going back to day one when it was just a few pages. I just hope it does not go to waste. I spent a lot of money on it over the years, along with Vintage Chevrolet of America club magazines. List goes on forever.

When I see some of the things going on on facebook I wonder how some survive in both Corvair and Ham radio hobbies. Everybody has their own ways, and some even survive..

Remember, Meetings at Jakes change days and times for the Fall and Winter season. I wish we could have a few "programs" showing some of the wonderful Corvair DVD and VHS programs from my collection, but we need time and a setup. Also years ago we were able to have a tech session, but no longer. It is interesting seeing what other clubs can do. Makes me want to move somewhere like that sometimes.

I look forward to a comfortable winter after I get my shoulder replaced and get better control of other medical issues.. Not going to be easy for a while, and I hope I can keep this newsletter going. So far no offers to take it over. So that means you are stuck with what I provide...

That's it for now, thanks if you read this, From Tim in Memphis (NY).

October News You Can Use from your CORSA Board of Directors

We hope everyone is enjoying the fall weather and getting those cars on the road! There are many car shows throughout the country that need our Corvairs to be on display. Where there is a Corvair, there is a crowd of people circled around sharing their stories and asking questions! Corvair chapter events are still underway in many areas of the country, and we encourage you to attend one soon.

CORSA Needs YOU! When you are at those car shows or club meetings, we need you to talk about CORSA! Make it personal and share your story of why you are a member and the benefits. Help us bring in new members! Need help with what to what to say? Download brochures with all the information. [Chapter Publicity Materials \(corvair.org\)](http://corvair.org)

Need more to get someone to join? New members who have never joined CORSA before can receive a copy of (the must have book) *Corvair Basics* for *free* with the paper membership level.

Show your CORSA support with a window decal on all your Corvairs- new, never members before, get one free in their welcome packet. You can also buy one here: [Sales Through CORSA Warehouses \(corvair.org\)](http://corvair.org)

Speaking of shows- we hope you enjoy this Convention issue of the *Communique*. Read through it to see all the results and convention perspectives. It was a great event, and Dayton was a wonderful host city. Thank you to the three clubs for working together for our enjoyment.

Next up: California, here we come for 2025! Come with your car or yourself to Santa Maria, CA, May 20-23, 2025. It is a wonderful area for vacations and the host chapters have events and tours to make it a great vacation. CORSA is excited to have a western division convention. Look for information about the convention and hotel reservations in the November issue of the *Communique*. To start your planning, read about all the great places to go and see! [Visitor Guide | Santa Maria Valley and Central Coast California Tourism - California Central Coast \(centralcoast-tourism.com\)](http://centralcoast-tourism.com)

The 2026 Convention will go east to Gettysburg, PA. We are looking for Central Division chapters interested in hosting for

FOR SALE

1964 Monza coupe with factory A/C, modified 110hp powerglide 3:27 differential. This car is originally from Texas , so no real rust , and the paint was destroyed by heat. I bought this car in 2006 to drive and enjoy. We drove it @2 years before the "rebuilt" motor tossed #1 ehaust seat. I had a 65 A/C motor with very low miles as a core(been seting a long time). So I rebuilt it my way with Clark's full fin .060 stuff , rebuilt heads from a shop near Boston , everything new. Cam is Otto OT20. It has high output alternator conversion , redone starter, transmission , differential , and brakes etc. I think ALL parts needed are in it new or rebuilt. Carpets , interior kit , padded dash , bumpers with guards , weatherstrips ,and more. Brakes and all wheel bearings etc all done before I drove it the first time. Imagine how much I put into it. There is a sunguard silver cover included. The car is apart needing paint prep and paint. It has a Spyder Dash in black wrinkle paint. It has a spare windshield with new gasket to replace the one which came with some wiper burn. It has HANDS wheels with t tires. It has Clark's dual exhaust. It has the Clark's C2851 ignition system on it. I last registered and inspected it in 2015 with my wifes Ham Call (now passed). Miles showing are 82.528. Any serious offers would want to come look it over I do my best to give accurate details. Located Memphis NY 13112.

I need \$8,000 or close to it. Please ck it out. rampy63@aol.com

GREAT PROJECT CAR. The Hands wheels are now gone. Call me for appointment to look it over . The motor alone is worth more than asking price. Looking for a REAL Cash offer . (315) 415-4243 for more. It is packed full of everything needed except paint to finish it. It is a good driving car as it sits , but looks horrible. Just paint issues , no rust Texas car with Factory A/C

I WANT YOU
