THE PREZ SAYS

Phil has retired! Now for a few words from Lew via a text. Welcome Lew!

Words from Lew: Thank You , We are in Florida . Will be back for the meeting. Plan on stopping to see Rick Gaffney on the way . He is going to Helen Georgia for the Corvaair show

Hopefully we get a few more words from Lew Halstead next month?

Ex Prez Sez from Phil Domser:

Last month at our regular monthly meeting elections of Club Officers was held. I did not run for office citing age and health problems. Our newly elected President is Lew Halstead. Lew has served as Vice President with me and will be a fine choice to be our next President. It has been a pleasure to serve as your Prez and good luck Lew on your newly elected position.

DO YOU RECALL?

Meetings are now on the first THURSDAY AT JAKE’S Grub & Grog at 916 Riverside DR, Brewerton.

Meetings start at 6:30PM please come earlier (@5) if you’d like to eat so we can start the meetings on time.

NEXT MEETING MAY 1st

The Kaiser’s car now owned and loved by
Neil Ritemyer

Congratulations !

Meeting adjourned at 7pm Motion Phil 2nd Marge

Motion carried

CALIFORNIA CASSEROLE

- | | |
|--|-------------------------------|
| 1 (18 oz.) pkg. mixed vegetables (any combination) | 1 stick melted butter |
| 2 or 3 tomatoes, cut in wedges | 1/3 c. bread crumbs |
| salt and pepper to taste | 1/4 c. grated Parmesan cheese |
| | 2 Tsp. grated Swiss cheese |
| | 2 Tbsp. grated Cheddar cheese |

Butter a 10-inch casserole dish and arrange from vegetables inside. Place tomatoes around edges. Sprinkle with salt and pepper and 1/2 of the melted butter. Combine bread crumbs and cheese. Sprinkle over vegetables. Drizzle remaining butter. Bake at 375° for 30 minutes or until cheese is brown and bubbly.

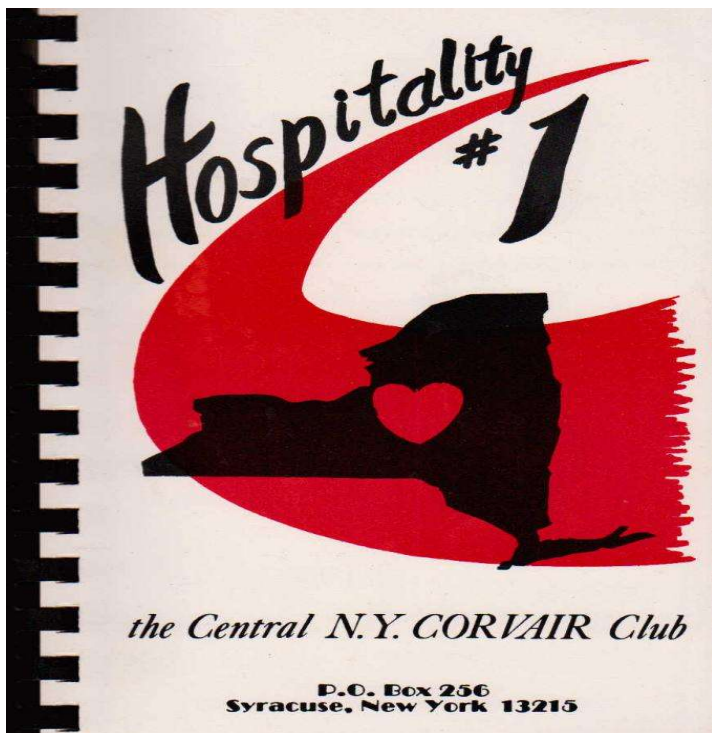

Rita Colson

CANDY SWEET POTATOES

- | | |
|------------------------------|------------------|
| 6 sweet potatoes (2 1/2 lb.) | 1/4 c. margarine |
| 1 c. brown sugar | 1/4 c. water |
| salt to taste | marshmallows |

Parboil sweet potatoes 15 minutes, drain. Cut each potato in 1-inch pieces, place in buttered baking dish. Combine brown sugar, salt, butter and water in saucepan. Boil 3 minutes. Then pour over potato slices. Bake in a 350° oven for 1 hour. Put marshmallows on top.

Greetings from "The Little Corvair Shop in Memphis NY". Some months I have a hard time getting inspired to get this column together. Then I get rolling and run out of space! I Really have a LOT on my mind this month. BIG changes looming for me (and the FAN).

This month MAY be my last one doing this newsletter . Boy that is mixed feelings. But I have to thank new member Neil Reitmyer for stepping up to take over the CNYCC FAN newsletter. Rita and I started out in the early 70s by helping Bob Waters , club founder , monthly working at his office putting together photo offset mats to go to printer. Then we went back to the office a few days later to collate pages , fold them , address them (up to over 200 copies monthly) , sort them, and take to Taft Rd Post office for bulk mailing. Then Bob died. The club was struggling financially after that , so I resorted to several methods just to keep the newsletter out there. WE gave it up to some one else a couple times , but it ended up back in our laps. Then computers and software came along to help. Then after a LOT of hard work generating funds things got to where we are now, a successful incorporated CORSA chapter. We still have to work hard and not waste anything to keep our group together and have a good future as a fun organization. Thanks to the hard work of our team we are doing good again. Please be a part of it if you are able.

ALSO Neil stepped up and purchased the beautiful red Corsa coupe from Bud and Elaine Kaiser in PA. This was not easy for them to do , owning and loving that car for so long. Can you imagine how I will feel if I have to give up Rumpy? I went nuts enough watching some one else at the wheel of our house boat and leaving the home on the river when we had to give it up because of health issues. So think of that when you see a car or things for sale by elderly people , it is NOT easy for us.

Another huge (for me) event was actually moving Phils 8 dr van out of the corner of the shop , and putting my unfinished 64 A/C coupe there. Its not easy to get a vehicle into that area, so long term projects only end up there. There is a lot of work left to do on the van , but it runs good (for running on very old treated gas) and moves fine. It even go out in the sun for a few minutes for the first time in too many years. I could write a book about that crazy project!.

My personal life is tied up a lot now , so shop time is very limited and hard to predict. Plus my body issues slow me down now. I still enjoy getting out there when I can , mostly working on Phils van project for now. My rampy needs detail work and cleaning. Its hard for me to do such work , but will try to get it looking better before Waterloo Memorial Day show on Main Street.

SO please welcome our new Editor and try to help him by providing anything you think would interest the group. I will try to provide some stuff and picture as I can. I would like to some Member bios , maybe with a picture of you and car if any and a blurb about you and your Corvair interests and background? Even if it is just a project or dream ? Need help with pictures? Just ask.

I am sure Neil will introduce himself here next month , and at the next meeting.

One of my issues is now being mentioned more online. I have M.D.S. and being treated at a wonderful facility in Camillus. Look it up sometime. My case was caused by a medical blunder when being treated with radiation for another kind of cancer. I was not made aware of the possible side effects from that treatment. [If you've ever felt unseen, misunderstood, or dismissed because the MDS you live with isn't visible, you're not alone. This article offers validation, practical tools, and empowering ways to navigate the emotional weight of living with a chronic blood cancer. I think of our club friend ,Ron Fausak often because he went thru hell with it the last few years. So many people out there, including members of our club, suffering quietly with different nasty diseases . Add Diabetes to the list also. More that one of us has that huge cross to bear also.](#)

There are a few nice weekly cruise ins that you might want to bring your Corvair to , or just show up and enjoy. I do not have the full list in front of me , but Clay Central park on Wetzel RD has a large one on Tuesday nights. Also a cozy group over at DBs in Weedsport on Wednesday night. If you go to any , tell us about them and maybe send us a picture or more? And maybe any shows you plan on attending? It would be nice if the club could group up at some of these events . Maybe meet somewhere close by and show up together? I personally look forward to Fair Haven in July , Port Byron , Waterloo , Jordan Fall festival , Minoa Orphan cars , and others. I will try to compose more soon. I also hope to start ending out other club newsletters again as I have time.

Looks like things are progressing for running the 2023 C N Y C C Recall. It's a hard task , so we appreciate the work being done to keep it alive.

I have so many Recall memories going back to day one when Rita and Gloria went nuts creating the best Hospitality rooms ever. That's it for now From Tim in Memphis (NY).

Electric Fuel Pump Installation – Winter 2024 Project

My winter 2024 project was installing an electric fuel pump on my '66 Monza. This car was notorious for hard starting after sitting for some time, and I also needed a solid replacement for the mechanical pump in my '65 Corsa. A replacement mechanical pump I purchased for the '65 from NAPA only lasted 30 miles before dumping fuel into the crankcase. The older mechanical pump I had previously purchased from Clark's was still going strong, so I moved it from the '66 to the '65—and thus began the electric conversion.

(As a side note, it's good to see that Clark's Corvair has announced the return of their mechanical fuel pump.) After doing quite a bit of research, I settled on the electric pump offered by Clark's, paired with a fuel pump controller from Revolution Electronics and an inertia kill switch. It's crucial to have a safety shutoff device to stop fuel flow in the event of an accident. I doubled up on safety features for my installation. Larry Claypool has a great YouTube video explaining the various types of electric fuel pumps available.

52ND YEAR

REPRODUCTION FUEL PUMPS
Final testing is done and production is being finished! New pumps should be in stock this spring. See inside cover for more details.

NEW Reproduction Carb Bases!
Good quality cores are getting harder to find so we are developing NEW replacement carb bases. See page 1 for details.

NEW Steering Drag Links!
Replace that bent and rusted drag link with a brand new one. See page 1.

NEW Steering Box Pitman Shafts and Worm Nuts
Often pitted and worn out, new replacements are in development. See page 1.

See inside this supplement for details on these new products and many others!

TECHNICAL QUESTIONS
One of our technicians is retiring after 39 years so we are no longer able to offer as much technical support over the phone. We will still offer support on all of our products. We encourage people to email their questions to us instead and highly recommend having a set of manuals. More details on page 16.

SCAN TO BROWSE OUR WEBSITE FOR PRODUCTS & SUPPORT!

With over 16,000 parts, it helps when you have your part numbers – Thanks!

I still consider literature an important part of any hobby including Corvairs even with all the internet resources. Starting with the all important Clark's Corvair parts catalogs. Of course they are online, but in your hand thumbing thru the pages still can't be beat.
